# CUSTOM SCREEN PRINTED TRANSFERS

Print like a pro using TKO'S custom heat transfers! All you need is a heat press and TKO transfers to save time and money. Our screen-printed transfers are made with **plastisol ink** just like a traditional screen-printer would use. Choose from two game-changing formulas, **Active Sport** and **Premium Plus**.

TKO is hands-down your winning solution for printing shirts, hats, bags, hoodies, koozies, or other blank options. Now you can print all your designs without sacrificing quality for convenience. **Customizing your products has never been easier!**

**Get 100 for only \$40!**

Setup fee included.

AVAILABLE IN **ACTIVE SPORT CLASSIC, THE UNDEFEATED CHAMP!**

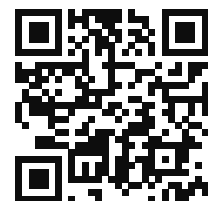

- 1 Color, screen-printed plastisol ink.
- No minimum order amount.
- Add metallic inks for \$5 per selection.

# DIGITAL FULL-COLOR TRANSFERS

Our digital transfers offer high-quality, **full-color** options to accommodate any project. You can choose these next-level formulas: **Xtreme Color Soft, Xtreme Color Stretch, Xtreme Color Blocker, Xtreme Color Digital, Xtreme Color Glitter, and Xtreme Color UV DTF.**

All Xtreme Color formulas are printed in **CMYK**, allowing them to capture **fine lines and details, gradients, free-standing text, and even photorealistic imagery!** These digital full-color transfers can often capture many design aspects that get lost when screen-printing traditionally. XC UV DTF takes it further by expanding the game to **hard surfaces!** Experience endless design possibilities.

## XTREME COLOR SOFT

Scan for more Information

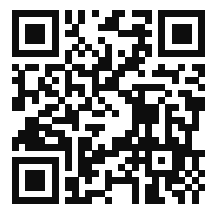

- Full-color, digital screen-printed transfer, **backed with plastisol ink** for our softest hand feel.
- Uses a hybrid printing process for **max opacity** on any color garment.
- Printed in **CMYK** to capture **fine lines and details, gradients, free-standing text, and photorealistic imagery.**
- Strongly recommended for **larger quantities (50+ prints).**
